approved benchmark tasks	AI evaluation platforms	remote AI evaluation, since 2024	label-free lie detection, AUROC

PROFILE

AI evaluation contractor: **280+ approved** benchmark tasks for AfterQuery and Snorkel AI, coding-agent evaluation at Micro1, RLHF at Outlier. CSE graduate, BRAC University; co-author of a preprint on detecting lies in LLMs.

EXPERIENCE

AfterQuery Experts · Contract Engineer, AI Evaluation — 2025 – Present · Remote

- **130+ approved SWE-bench-style tasks** from real bugs in my own private TypeScript/JavaScript and Python repos
- **120+ approved Terminal-Bench tasks** in ML/AI and compilers & parsers, each checked by behavioral tests
- Every task ships fail-to-pass tests, a reference fix and a pinned Docker image
- Hardened tests against shortcuts: hard-coded outputs, monkey-patching and reward forging

Micro1 · Coding Agent Evaluator — 2026 – Present · Remote

- Evaluate coding-agent workflows from frontier AI labs, with in-depth review of the complex code changes they make

Snorkel AI · Benchmark Task Author — 2025 – 2026 · Remote

- **30+ Terminal-Bench 2.0 tasks**: Docker/Linux environments with realistic failures and automated grading
- Graded a frontier lab's code-review model on real GitHub PRs; wrote rationales used as RLHF data

Outlier · Training Specialist — Sep 2024 – Sep 2025 · Remote

- Ranked, rewrote and critiqued model responses on React, JavaScript and API tasks across RLHF projects
- Audited an assistant's extension calls (maps, notes and more) for the right call and a grounded answer

RESEARCH & PROJECTS

The Geometry of Lies: Knowledge and Persona Directions for Detecting Deception in LLMs · Undergraduate thesis

M. A. Al Zami, S. Shanaz, **M. Hasan**, S. A. Dipu, F. Y. Sadeque, M. S. Ahmed · Preprint, 2026

- A single label-free direction beats supervised probes across lie datasets on 3 of 4 LLMs (**0.916** vs 0.732 AUROC)
- Ran the experiments and analysis, the Qwen, Mistral and Gemma replications and the external tests; wrote the paper

Leitmotif · Solo · CSE425 Neural Networks · 2026 — code · demo · report

PyTorch · PyTorch Geometric · BERT · Gradio

- Music tagging and search: a graph neural network over song structure plus BERT over captions
- **Caught label leakage** (65.6% of tags sat in the captions) and reported the honest **0.468** macro-F1, not the inflated 0.659

500 Beginner Python Projects · Open source · 2024 – present — code

Python · GitHub Actions

- GitHub Actions that validate, security-scan and auto-merge contributor PRs · **10 stars, 9 forks**, about 8 contributors

TEACHING

Python Instructor · Edupy · Python and OOP for beginners — Feb 2023 – Oct 2023

Computer Science Tutor · Python, data structures & algorithms, math for CS — Jul 2024 – Dec 2024

EDUCATION

BRAC University · BSc in Computer Science and Engineering — 2022 – 2026 · Dhaka

Coursework: Neural Networks · Artificial Intelligence · Algorithms · Operating Systems · Compilers · Circuits & Electronics · Digital Logic Design · Microprocessors · Linear Algebra · Probability & Statistics

SKILLS

EVALUATION	Benchmark task design · Test harnesses · Difficulty tuning · RLHF ranking · PR review · Tool-use audits
CODE	Python · TypeScript / JavaScript · Bash · C · C++ · SQL
SYSTEMS	Linux · Docker · Git · GitHub Actions · pytest · Harbor
ML	PyTorch · PyTorch Geometric · Hugging Face Transformers · nnsight · scikit-learn · pandas
LANGUAGES	Bengali (native) · English (fluent)

Task counts are approved tasks, verifiable on request · Client names withheld under NDA · Updated October 2026
