01 EXPERIENCE

Prolific

DEC 2021 — PRESENT · REMOTE

Senior Product Engineer

SEP 2023 — PRESENT

- Own features end-to-end across the platform, from design through to production support.
- Designed and built a study distribution system that reduced participant-facing errors by ~75% — a creative solution that worked within existing infrastructure constraints, avoiding months of cross-team work.
- Led accessibility (WCAG AA) initiatives, building automation testing frameworks and influencing other teams to adopt them.
- Built and maintained design system components used across the platform, improving frontend consistency and velocity.
- Drove participant experience improvements — onboarding flows, UI workflows, and changes that increased engagement and retention.
- Improved internal admin tooling, transforming support team workflows and efficiency.
- Proactive across the company — from tackling production incidents off-hours to embedding with other teams to share frontend expertise.
- Led the Vue 3 migration and company rebrand implementation across the web client.
- Frontend quality advocate — knowledge sharing, code reviews, and mentoring less experienced engineers.
- Full-stack delivery across Python, Django, Vue, TypeScript, MongoDB, Redis, and Kubernetes.

Frontend Engineer

DEC 2021 — SEP 2023

— Built and shipped features focused on improving participant and researcher experiences.
— Led the company rebranding implementation across the web application, exceeding expectations on quality and timeline.
— Helped establish a new product team, becoming a key technical resource during a critical formation period.
— Collaborated closely with designers and product managers to shape and deliver user-facing improvements.
— Promoted to Senior Product Engineer after ~2 years.

Mindera UK

JUL 2019 — NOV 2021 · LEICESTER, UNITED KINGDOM

Full-stack Developer

MAR 2020 — NOV 2021

— Built and maintained the full-stack e-commerce platform for Dunelm.com, one of the UK's largest home furnishings retailers.
— Stack: AWS, Node.js, React, GraphQL.
— Shipped features across the storefront, basket, and checkout experiences.

Front-end Developer

JUL 2019 — MAR 2020

— Built a React-based web application for a UK finance company.
— Promoted to Full-stack Developer after ~9 months.

Invisual Branding Solutions

SEP 2017 — JAN 2019 · AVEIRO, PORTUGAL

Web Developer

SEP 2017 — JAN 2019

— WordPress projects for small and medium clients.
— Small internal management apps with PHP.
— Static websites with HTML5 and CSS3.
— Cross-platform mobile apps with PhoneGap.

02 SELECTED PROJECTS

Zerosum

ZEROSUM.SO

Zero-based budgeting made simple. A full-stack SaaS I built and run with real users.

REACT · TYPESCRIPT · TAILWIND · HONO · TRPC · POSTGRES

Liga do Tinto

LIGARECORD.FIDALGO.DEV

A custom fantasy league dashboard for my friend group. Replaced a clunky website and messy spreadsheets with proper stats and split-season tracking.

REACT · TYPESCRIPT · VITE · TAILWIND

Movie Library

MOVIES.FIDALGO.DEV

A React app for browsing and discovering movies. One of my earlier projects that helped me learn React and working with external APIs.

REACT · REDUX · REACT ROUTER · STYLED COMPONENTS · SASS

03 SKILLS

LANGUAGES	TypeScript · JavaScript · Python · HTML · CSS	FRONTEND	React · Next.js · Vue · TanStack Start · TanStack Router · TanStack Query
BACKEND	Node.js · Hono · tRPC · Django · FastAPI	STYLING	Tailwind CSS · SASS · Styled Components
DATABASES	PostgreSQL · MongoDB · Redis	DEVOPS	Docker · Kubernetes · Git · CI / CD

04 EDUCATION

Communication and Multimedia

2014 — 2017

Universidade de Trás-os-Montes e Alto Douro · Vila Real, Portugal

Technical Course of Multimedia

2010 — 2013

Escola EB 2/3 c/ Secundário PAMF · Murtosa, Portugal
