Emmanuel Ziem Yaan-Tol

Accra, Ghana | +233 53 556 5485 | emmamayne23@gmail.com | LinkedIn | GitHub | Portfolio

Professional Summary

Full Stack Developer with 2+ years of hands-on experience building scalable web applications. Proficient in Next.js, TypeScript, PostgreSQL, and modern authentication. Proven ability to architect secure systems and deliver robust, end-to-end solutions that drive user engagement.

Skills

- **Programming Languages & Scripting:** JavaScript (ES6+), TypeScript, SQL, SCSS
- **Front-End:** React.js, Next.js, Vue.js, React Native, HTML5, CSS3, Tailwind CSS, Shadcn UI, Zustand, Figma
- **Back-End & Authentication:** Node.js, Express.js, REST API, AI-SDK (Vercel), Clerk, Auth.js
- **Database Systems:** MongoDB, Supabase, PostgreSQL (Neon), Firebase, Drizzle ORM, Prisma ORM
- **DevOps & Version Control:** Git, GitHub, Vercel, Netlify

Projects

- **Interview SideKick: AI-powered platform for personalized interview preparation** Live Link | GitHub
  Tech Stack: *Next.js, PostgreSQL (Neon Database), TypeScript, Drizzle ORM, Auth.js, AI-SDK, Vapi AI*
  - Architected a conversational AI interview system leveraging Vercel's AI-SDK and Vapi AI, successfully increasing the user interview completion rate.
  - Incorporated Auth.js for secure user authentication and session management across the platform.
  - Designed and applied a scalable database schema with Drizzle and Neon for storing user feedback and interviews.
- **MediBook: Comprehensive online platform for booking medical appointments** Live Link | GitHub
  Tech Stack: *Next.js, PostgreSQL(Neon), Auth.js, TypeScript, Drizzle ORM*
  - Engineered a secure booking system using auth.js for role-based access control and Neon serverless Postgres for database operations, successfully handling 200+ test appointments.
  - Designed and optimized relational data models with Drizzle ORM to manage appointments, patients and doctors.
  - Assembled dashboards and analytics for admins and doctors, virtually eliminating common scheduling errors.
- **Converso: Interactive AI companion platform for personalized learning** Live Link | GitHub
  Tech Stack: *Next.js, Supabase, Clerk, TypeScript, Shadcn UI, Sentry, Vapi AI*
  - Executed a modular companion system using Vapi AI, significantly boosting conversational engagement.
  - Integrated Clerk for secure authentication and role-based profiles, supporting 100+ personalized learning sessions.
  - Implemented Sentry for comprehensive error and performance monitoring, reducing unresolved user issues.
- **Resumind: AI-powered resume analyzer** Live Link | GitHub
  Tech Stack: *React.js, Puter.js, TypeScript, React Router, Zustand*
  - Enforced secure serverless authentication and local file parsing, ensuring reliable storage of resumes with Puter.js.
  - Built a dynamic evaluation flow with Zustand and React Router, reducing navigation time significantly for users.
  - Created reusable UI components for uploading, previewing, and scoring resumes customization.

Experience

- **Freelance** *August 2024 - October 2025*
  Full Stack Developer Fes, Morocco
  - Led full-cycle development for 2+ clients, translating requirements into production-ready web solutions.
  - Collaborated directly with clients to define project scope, and managed the lifecycle from initial code development to final hand-off.
  - Optimized React applications for performance, ensuring high web standards and responsive component design.

Education

- **Sup'Management** *October 2023 - July 2025*
  M.Sc. in Information Systems Fes, Morocco
- **Sup'Management** *October 2020 - July 2023*
  B.Sc. in Computer Science Fes, Morocco

Other Experience

- **Ascot Pharmacy Ltd.** *August 2019 - January 2020*
  Assistant Pharmacist Accra, Ghana
  - Managed point-of-sale transactions, financial records, and inventory documentation to support smooth operations
  - Developed team workflows that improved transaction speed, increasing checkout efficiency.
