Abdul Basit

(Full-Stack Web Developer)

Portfolio

Full-Stack Engineer specializing in Next.js, TypeScript, and Node.js, with experience delivering production AI SaaS tools and scalable web applications. Built and deployed Chatley AI and worked with international startups across Austria and the US. Designed optimized MongoDB schemas, automated workflows using n8n, and developed high-performance React apps, focusing on clean architecture and scalability.

Technical Skills

- **Languages: TypeScript**, JavaScript, HTML, CSS
- **Frontend Development:** React.js, Next.js, Tailwind CSS, Shadcn/UI, Material UI
- **Backend & Databases:** Node.js, Express.js, REST APIs, MySQL, MongoDB, Prisma, Firebase
- **Tools & Platforms:** Git, Vercel, n8n, Framer, Figma
- **Concepts & Security:** Authentication (Next-Auth, OAuth), UI/UX, Automation Workflows, Responsive Design

Experience

Forthlogic AI - Full Stack Developer (Remote - United States) **July 2025 - Present**

- Core Full-Stack Engineer for Chatley AI : Architected scalable Next.js user dashboards and Node.js backend services powering 24/7 AI voice and multi-channel messaging workflows.
- Workflow & Data Automation: Engineered automated data integration pipelines using n8n and REST APIs to sync call records, appointments, and intent analytics directly into client CRMs.
- Schema Architecture: Designed high-throughput MongoDB database schemas for multi-tenant users, real-time call logs, and conversational analytics.

Alphabase - Frontend Developer Intern (on-site - NSTP, Islamabad) **Nov 2024 - April 2025**

- Developed responsive Next.js/Tailwind UI components for AI applications.
- Built AI image-generation workflows using n8n and API integrations.
- Collaborated with designers and engineers to improve UI/UX and usability.

JUHUU GmbH - Frontend Developer (Remote - Austria) **Sep 2023 - Mar 2024**

- Developed customer-facing web platform features for JUHUU, an Austrian shared-mobility and smart rental infrastructure SaaS.
- Engineered modular, reusable React.js & Tailwind CSS UI components to optimize page load speeds and user booking flows across desktop and mobile.

Projects

Docs-now - AI SaaS Platform

Next.js · TypeScript · OpenAI · Stripe

- AI & RAG Architecture: Engineered a full-stack Retrieval-Augmented Generation (RAG) SaaS platform enabling sub-second chat interactions with uploaded PDF documents using OpenAI embeddings and vector similarity search.
- Monetization & Streaming: Implemented end-to-end subscription billing via Stripe API and built real-time AI response streaming using modern Server-Sent Events (SSE) / Vercel AI SDK.

Issue Tracker

Next.js· TypeScript · Prisma - MySQL · Tailwind CSS · Radix UI

- Full-stack issue tracker with NextAuth-secured CRUD APIs, Prisma schema/migrations, and React Query data fetching.
- Dashboard featuring summary cards, Recharts bar charts, status filtering, pagination, and dynamic routing.
- Reusable Radix UI components.

GameHub - A Game Discovery Website

React.js · Tailwind CSS · React Router · Chakra UI · React query

- Designed a responsive React front-end using the RAWG API to fetch and display 10K+ video game entries, achieving a 95% UI performance score.
- Implemented game categories, search functionality, and detailed game information.
- Designed a modern and responsive UI to enhance user experience.

Rentistan- Home Rental App

React Native · Expo · Firebase

- Created a React Native/Expo rental management app with Firebase Auth & Firestore, featuring conditional navigation, multi-channel tenant-manager communication, notification handling, custom UI components, and Android performance optimizations.

Education

Bachelor of Science in Information Technology (BS IT) 09/2020 - 09/2024

University of Chakwal
