SUMMARY

Founding Product Engineer with 5+ years building and scaling B2B SaaS and AI-powered products. Currently leading product engineering at Kay.ai, and previously co-founded and scaled startups to millions of users. Strong at turning ambiguous product ideas into shipped systems across React, backend infrastructure, and applied LLMs.

EXPERIENCE

KAY.AI | Founding Product Engineer | Mar 2024 - Present

- Led frontend architecture and UX for an AI Copilot automating insurance workflows used by brokers; owned end-to-end product delivery from design to production.
- Experimenting with emerging AI models, techniques and UX paradigms to enhance usability and system design.
- Tech Stack: **React.js**, **TypeScript**, ShadCN, TailwindCSS, AWS.

DREAMBOAT AI | Co-Founder / CTO | Feb - Nov 2023

- Led the team for the design and development of LLMOps Platform to help monitor, manage, and debug LLM apps following Agile principles.
- Designed a high-performance **Cloudflare Workers** proxy achieving sub-20ms latency.
- Launched multiple LLM-powered apps including • Divedash – Chrome extension suggesting prompt templates for ChatGPT. • Almada – LinkedIn icebreaker generator from profile URLs.
- Tech Stack: **ReactJS**, **Typescript**, Rails, NodeJS, AWS, Cloudflare, TimescaleDB, Redis, PostgreSQL

ENGAGEBUD | Co-Founder / CTO | Aug 2021 - Nov 2022

- Built **Influencerbit** (Influencer Marketing Platform) and later **Engagebud** (Gamification) for eCommerce brands.
- Scaled backend to handle **13M+** users and generate **6M+** discount codes.
- Tech Stack: **ReactJS, Rails, TypeScript**, PostgreSQL, JavaScript.

PROFILEBUD | Product Engineer | May 2020 - Jun 2021

- Founding frontend engineer; led development of responsive websites, admin portals, and payment flows..
- Built a Go backend handling **20M+** user records and **1K+** requests/sec.
- Tech Stack: **ReactJs, Rails, GoLang**, Gatsby, Javascript

ACHIEVEMENTS

- Co-founded and raised **$100K** in funding for an early-stage SaaS startup.
- Built and scaled production systems serving **13M+ users** and generating **6M+** transactions.
- Written **50+ technical blogs** with **400K+** total readership on Medium.

EDUCATION

UNDERGRADUATE
IIT Jodhpur
BTech in Mech. Engg.
Minor in Entrepreneurship
June 2022 | Jodhpur, India

SKILLS

PROGRAMMING LANGUAGES
TypeScript • Python • Javascript • Ruby • Go

FRONTEND & FRAMEWORKS
React.js • Next.js • TailwindCSS • shadcn/ui

BACKEND & DATA
Ruby on Rails • Node.js • PostgreSQL • Redis

APPLIED AI & LLMS
LLM integrations (OpenAI, Anthropic, Gemini)
Prompt design & evaluation • LLMOps platforms • AI Agents
AI workflow orchestration • Copilot and agent-based UX

INFRASTRUCTURE & TOOLS
AWS • Cloudflare Workers • Git • Linux
